

Standard for clean air

Welcome to Keller Lufttechnik

Extraction of process exhaust air

Separation of emissions

Return of clean air

Tradition and Innovation

- “ Founded 1903 as family business actually in 4th generation
- “ > 400 employees | turnover >70 Mio. € (incl. subsidiaries)

The goal at Keller Lufttechnik is to provide clean air for industrial production processes by employing innovative filtration technology and sustainable extraction solutions.

Industrial production processes often generate various airborne pollutants that must be reliably extracted and separated, not only to protect facilities and equipment, but also to enhance employee health and well-being. This is ensured by Keller Lufttechnik, a leading manufacturer of dust extraction systems and filtration technology, with special focus on innovation and sustainability. Keller Lufttechnik adheres to its slogan "**Standard for Clean Air**".

Operating world-wide ...

... with **3 subsidiaries**, 3 licences and 11 representative offices
